

**Kuvetech**  
Global Services Limited

**COMPANY PROFILE**

# Contents

## 02 About Us

## 04 Our Services

- Mechanical Design
- Front End Engineering Design
- Piping Design
- Generating As-Built Drawings
- Generating Isometric Drawings
- Fabrication Drawings
- Structural Drawings.
- Pipeline services
- Valves services
- Nondistructive testing (NDT) services
- Calibration/instrumentation
- Tank cleaning services and rehabilitation
- Procurement services
- Technical manpower services
- Corrosion monitoring
- Intelligent pigging services

## 12 Our Project

## 13 Clients

## 14 Contact Us

## ***Who Is Kuvetech?***

Kuvetech Global Services Limited is a Nigerian company that specializes in providing comprehensive engineering design solutions to the oil and gas sector. With a strong focus on excellence, innovation, and professionalism.

we strive to exceed our clients' expectations and contribute to the growth and success of the industry.

## Our Vision

To be the leading provider of innovative and cost-effective engineering design solutions in Nigeria's oil and gas sector.

## Our Mission

At Kuvetech Global Services Limited, our mission is to deliver exceptional engineering design services that exceed our clients' expectations, while fostering long-term partnerships and contributing to the growth and success of the oil and gas industry in Nigeria.

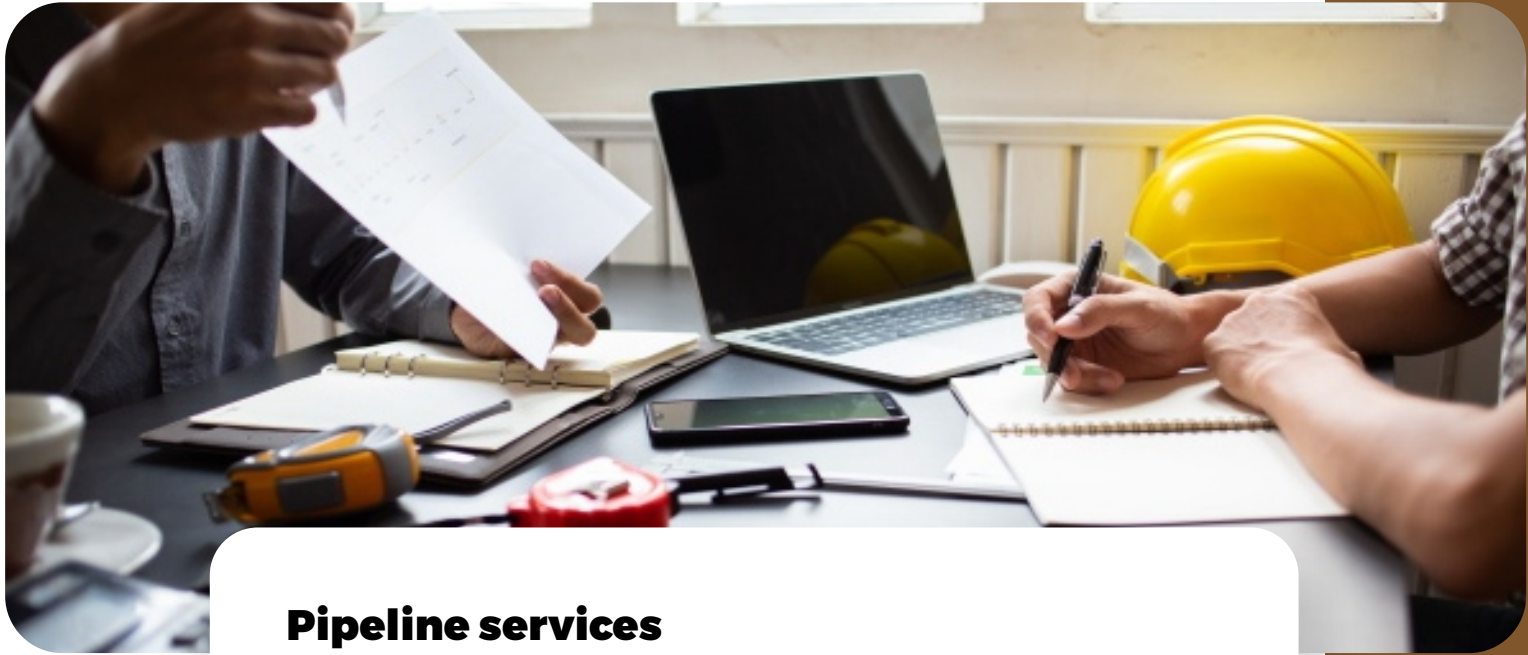

## Core Values

We believe in maintaining the highest

## Core Values:

- **Excellence:** We strive for excellence in all aspects of our work, maintaining the highest standards of quality, precision, and efficiency.
- **Integrity:** We conduct business with honesty, transparency, and ethical principles, ensuring trust and respect in all our relationships.
- **Innovation:** We embrace creative, continuous learning, and technological advancements to provide cutting-edge solutions to address our clients' evolving needs.
- **Collaboration:** We believe in the power of collaboration, working closely with our clients, partners, and stakeholders to achieve shared success.
- **Professionalism:** We uphold professionalism in our conduct, interactions, and deliverables, demonstrating expertise, reliability, and accountability.

# Our Services

**Pipeline services**

**Valves services**

**Nondestructive testing (NDT) services**

**Calibration/instrumentation**

**Tank cleaning services and rehabilitation**

**Procurement services**

**Technical manpower services**

**Corrosion monitoring**

**Intelligent pigging services**

***Kuvetech Global Services Limited specializes in providing comprehensive engineering design solutions to the oil and gas sector. Our diverse range of services includes:***

- **Front End Engineering Design (FEED):**
  - Conducting easibility studies and project scoping.
  - Conceptual design development and evaluation.
  - Project cost estimation and budgeting.
  - Risk assessment and miti aationstrategies.

## ● Mechanical Design:

- Design and analysis of mechanical systems.
- Equipment selection, sizing, and optimization.
- 3D modeling and simulation.
- Performance evaluation and troubleshooting.

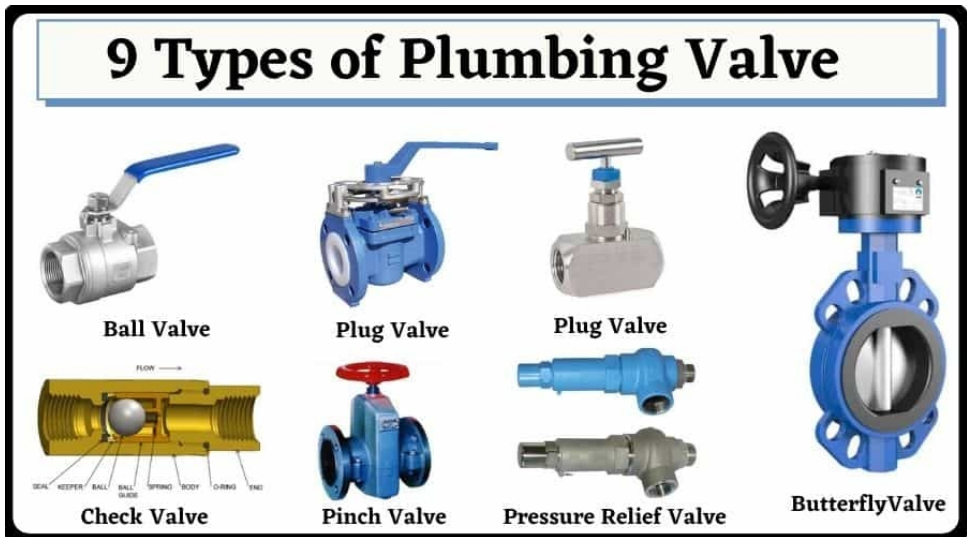

## ● Piping Design:

- Layout design and routing of piping systems.
- Material selection and specifications.
- Stress analysis and support design.
- Pipe sizing and hydraulic calculations.

### PIPELINE SERVICES.

- Pipeline hydrotesting.
- Inline inspection.
- Pipeline cleaning.
- Baseline Survey.
- Pumping services.
- Chemical injection.
- Pipeline dewatering and drying.
- NDT

### VALVES SERVICES.

- Valves supply.
- Valves maintenance.
- Valves repairs

### Nondistructive testing (NDT) Services:.

- Ultrasonic inspection.
- Magnetic particle inspection.
- Visual inspection. API Drift.
- Coating. EMI.
- Pulsed Eddy current (PEC).
- In-service flange face corrosion detection (PAUT).
- Lamination checks

### Calibration/Instrumentation.

- Valves.
- Sensors.
- Pressure gauges

### Tank cleaning and rehabilitation services:

- No man entry tank cleaning.
- Cleaning liquids .
- Spill prevention and spill response absorbent products.
- Conductive and non-conductive floor corrosion protection

### Procurement services:

- Sourcing .
- Logistics management.
- Supply Chain coordination.
- Negotiation.
- Vendor management.
- OEM representation.
- Due diligence.
- Contract management

### Technical manpower services:

- Semiskilled .
- Expat professional.
- Skilled. Unskilled

### Corrosion monitoring and control services:

- Blasting and coating. Cathodic protection.
- Internal corrosion inspection.
- External corrosion inspection.
- Hardware Barrier Assessment

**Intelligent pigging:**

- Ultrasonic inline inspection.
- Rotary (UT-R) inline inspection.
- Caliper inline inspection.
- Magnetic flux leakage (MFL) inline inspection.
- Unpiggable pipeline inline inspection

## · Product and Engineering Process Design:

- Designing innovative and functional products.
- Developing efficient engineering processes.
- Prototyping and testing.
- Value engineering and optimization.

## · Fabrication and Related Services:

- Fabrication of structural steel components.
- Welding, machining, and assembly.
- Quality control and inspection.
- On-site installation and commissioning support.

## Our Clients:

We cater primarily to clients within the oil and gas sector, including exploration and production companies, refining and petrochemical plants, offshore platforms, and engineering contractors. We have a strong track record of successfully delivering projects of varying scales and complexities, providing tailored solutions that align with our clients' specific requirements.

## Summary

At Kuvetech Global Services Limited, we are committed to delivering efficient, cost-effective, and innovative engineering design solutions to the Nigerian oil and gas sector. Our dedication to excellence, integrity, collaboration, and professionalism sets us apart in the industry. With our dependable and reliable services, we aim to become leaders in the market, continuously exceeding expectations and driving the growth and success of our clients and the industry as a whole.
